---

## Professional Highlights

Recent B.Sc. in CSE | Adaptable and technically versatile, combining fast learning with a collaborative mindset to build scalable full-stack applications that prioritize user experience and measurable impact.

## Skills

---

**Technical Skills:** JavaScript(ES6), MongoDB, ExpressJS, ReactJS, NodeJS, NextJS, TailwindCSS, TypeScript, Redux, Stripe, Postman, Socket.io, Postgre/SQL

- Networking(CCNA certification) & basic Hardware

**Non-Technical Skills:** Communication, Team Collaboration, Problem-Solving, Adaptability

## Projects

---

- ❖ **Learning Management System (Full-Stack)** [Live Link](#) | [Client Code](#) | [Server Code](#)

**LMS with:** course publishing, enrollment, streaming, ratings, Clerk auth, Stripe sandbox.

### Features

- **Role-Based Access:** Educator vs. Student (Clerk)
- **Course Publishing:** Create/publish, rich text (Quill), YouTube
- **Student Experience:** Browse, enroll, streaming, progress, ratings/reviews
- **Payments:** Stripe sandbox (webhooks-ready)
- **Media & UI:** Cloudinary, Tailwind
- **Security:** dotenv, CORS, Nodemon
- **API Testing:** Postman

### Technologies

- **Frontend:** React, Vite, Tailwind, React Router, Quill, YouTube, unidid, rc-progress, star-rating
- **Backend:** Node.js, Express, MongoDB, Clerk, Stripe (sandbox), Cloudinary

❖ **Real - Time Chat Application (Full-Stack)**    [Live Link](#) | [Client Code](#) | [Server Code](#)

**Chat - App** : delivers messages instantly to recipients without page reloads. Includes signup/signin authentication and live online activity indicators. Short, smart, and professional.

**Features**

- **Real-time messaging:** Bidirectional, instant.
- **Online presence:** Live indicators.
- **Authentication:** Sign-up/in with JWT.
- **Media messaging:** Images/videos storage.
- **Deployment-ready:** Frontend + backend for deployment.
- **Responsive UI:** TailwindCSS.

**Technologies**

- **Frontend** : React, TailwindCSS, Socket.io-client, Vite, JWT (client-side token handling)
- **Backend:** Node.js, Express, Socket.IO (server), MongoDB, bcryptjs, JWT, Cloudinary, dotenv

❖ **Task Manager App (Todo)**    [Live Link](#) | [Code](#)

**Features**

- **Real-time task management:** create, edit, complete, delete with instant UI updates
- **Local persistence:** offline access via localStorage
- **Time metadata:** day, date, and time per task
- **Unique IDs:** UUID
- **Responsive UI:** TailwindCSS
- **Lightweight deployment:** Vercel-ready

**Technologies**

- **Frontend:** React, TailwindCSS, React Icons, UUID
- **Tools:** Vite, PostCSS, Autoprefixer
- **State & Persistence:** LocalStorage

## Education

---

**B.Sc. in Computer Science and Engineering**

Daffodil International University, Ashulia DSC, Savar

Grad Year: 2025

**Diploma in Computer Engineering**

Cox's Bazar Gov't. Polytechnic Institute, Cox's Bazar

Grad Year: 2020
